

Parks & Rec 2022.1.21 Service Pack Notes

| Primary Program | Notes | CRM Case | Type | Jira ID |
|---------------------|--|----------|---------|----------|
| Add On Purchases | In some scenarios, when the time zone on the server did not match the application's time zone, transactions in the Transaction Settlement Report displayed the incorrect date. | 10309404 | Bug Fix | REC-5368 |
| Membership | In certain instances, when the server time and Parks & Rec system time did not match, the sign-in date was incorrect. | 10247518 | Bug Fix | REC-5365 |
| Rental Registration | Users were unable to search by fields other than dates in Rental Registration Search. | 10300243 | Bug Fix | REC-5366 |
| Rental Registration | The Custom Fields grid did not scroll properly when pagination was changed. | 10312563 | Bug Fix | REC-5370 |
| Users | The residency check did not occur automatically for dependents for address changes with the same address as another family member. | 10255845 | Bug Fix | REC-5367 |
