

## Tyler Parks and Recreation 2021.1.3 Service Pack Notes

Jira ID	CRM Case	Type	Primary Program	Notes
REC-4956	NA	Enhancement	Integrations	ArcGIS Online service may be used to determine residency status when contacts are created or edited. It also may be used to determine residency status specific for class registration if enabled in System Settings. The System Settings page has been updated to allow the use of ArcGIS Online service to update the residency status of all contacts without the <i>Resident Override</i> option selected.
REC-4973	8590375	Bug Fix	Integrations	The Collection Export for New World ERP has been modified based on the specification document.
