

## Tyler Parks and Recreation 2021.3.4 Service Pack Notes

Jira ID	CRM Case	Type	Primary Program	Notes
REC-4962	8490867	Bug Fix	Class Registration	The age calculation was incorrect when a registrant was added to the class wait list through the citizen portal.
REC-4988	8942145	Bug Fix	System Setup	Clicking the <b>Classes</b> button on the citizen portal generated a system log entry.
REC-5034	NA	Enhancement	Reporting	<i>Class Description</i> has been added to the Class Excel Report.
REC-5037	8805309, 8995335	Bug Fix	Integrations	Different Parks and Recreation collection exports were created in the same Munis batch.
REC-5038	9025977	Bug Fix	Class Registration	The <i>Allow waitlist to remain open</i> setup feature did not allow wait listing after the registration deadline.
REC-5064	8942156	Bug Fix	Cashier Setup	Failed login attempts from the citizen portal populated the system log.
REC-5068	9025927	Bug Fix	Integrations	Multiple refunds for the same payer caused the AP Export file to be formed incorrectly.
REC-5070	9025954	Bug Fix	Class Registration	The <i>Enforce Emergency Contact for Minors</i> setting was not taken into account if another condition failed validation during registration.
